The "Maths is" Jugglers - Home Barbara Young - maths enthusiast, teacher, writer and director of The 'Maths is...' Jugglers. Using Math to Juggle? - Juggling Experiments | HowStuffWorks Jugglers write site-swaps as a series of numerals representing how many beats each toss will take from throw to catch, which translates into how high each throw must be made in the pattern. Jugglers notate a normal three-ball cascade as 333, since each throw takes three beats. Juggling, maths and a beautiful mind | plus.maths.org Mathematical jugglers refer to strings of numbers such as 3 and 5,1 as juggling sequences or site swaps. Juggling sequences are for juggling what musical scores are for music. Juggling sequences are for juggling what musical scores are for music.

The Mathematics of Juggling | Quanta Magazine For a single juggler, there are three basic patterns: the cascade, in which an odd number of balls are tossed from one hand to the other; the fountain, in which an even number of balls are juggled in two separate columns; and the shower, in which all the balls are tossed in a circle. Math + juggling = better problem-solving tools for ISU ... Applying math to the sport allows jugglers to explore the limits of what is possible, calculate the number of different patterns and find connections between patterns. Butler says students can use a formula to figure out, for example, all the juggling patterns using four balls that repeat after five throws.
